VIVO CARE

VivoCare®
Mobile rehabilitation and geriatrics

Product information

StatConsult
Gesellschaft für klinische und Versorgungsforschung mbH

VivoCare® Mobile rehab and geriatrics is the ideal solution for the efficient management of your scheduled admissions and ongoing cases. Rely on our solution to make your processes clear, transparent and straightforward – for better patient care.

CASE MANAGEMENT

VivoCare® provides comprehensive support for organising new admissions and case management in **mobile rehabilitation** and **geriatrics**.

A **user-friendly platform** allows all relevant information to be managed centrally and accessed at any time.

The **mobile app** for smartphones and tablets enables efficient recording of service and therapy units – even when on the move.

This not only improves communication between specialists, but also ensures **complete traceability**.

Another highlight is the **digital reports**, which make it easier to keep track of patients' healing progress. They are clear and flexibly customisable so that individual needs and requirements can be taken into account.

CALENDAR

The **integrated calendar** helps you keep track of all important appointments. Whether planned medical admissions, treatments by your therapists and carers in the patient's home, team meetings or training courses – with our calendar, you have everything at a glance and can make the most of your time. Manage your resources **efficiently** and **without conflict** with the help of the VivoCare® calendar.

In addition, our **appointment management** system offers a **user-friendly way** to schedule, change, reschedule or cancel appointments for patients.
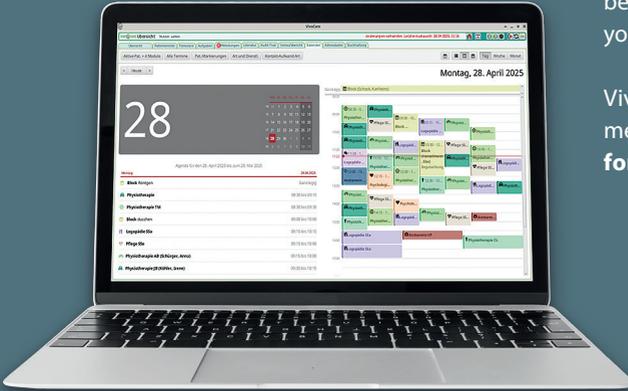

FORMS AND TEMPLATES

Forms and **templates tailored** to your individual needs can be **created** and **sent at the touch of a button**.

Important documents such as **confidentiality waivers, treatment contracts, statutory extension requests** and the **MoGeRe basic documentation** can be created quickly and easily and, if you wish, **signed digitally**.

VivoCare® also supports the implementation of **satisfaction surveys for patients** and their **relatives**.

Mobile rehabilitation and geriatrics

PATIENT HISTORY DOCUMENTATION

Patient history documentation helps you keep track of your patients' treatment progress at all times

With features for **recording findings, scores, contacts (such as phone calls), as well as treatment and therapy sessions** and **team meetings**, you can document all key information clearly and efficiently. In this way, VivoCare® makes your work easier and ensures seamless, professional care for your patients.

PATIENT APP

Set new standards in mobile rehabilitation and geriatrics.

With the **VivoCare®** Patient App, you enable your patients to play an active role in their recovery process.

The app offers a wide range of helpful features that significantly facilitate communication between healthcare professionals and patients. This allows users to:
• access their scheduled appointments,
• view individual treatment plans, and
• directly assess the quality of wound care.
This not only builds trust but also fosters a sense of personal responsibility among patients – or their authorised representatives – in their treatment.

VivoCare® Mobile App

Transparent communication for better care:

Thanks to the combination of our powerful wound care software and the integrated patient app, you can establish transparent, efficient communication that sustainably improves the quality of wound care.

EFFECTIVE TEAM COMMUNICATION WITH VIVOCARE®

Team communication is a central feature of VivoCare® – supported by **integrated task management** and **messaging functions** for the **targeted exchange of information**.

In addition, VivoCare® offers an integrated **literature management** system that supports users in their professional development and targeted information research.

With VivoCare®, you can **optimise** your **quality management (QM)** processes – for example, through pre-formulated text modules that serve as drafting aids. This enables **smooth teamwork** and frees you up to focus entirely on providing the best possible care for your patients.

SETTLEMENT

VivoCare® enables **quick and easy billing** with insurers and patients. **All billing-related information** can be transferred **digitally** by exporting it to various financial accounting systems. This **saves time** and **reduces administrative effort**.

In addition, we offer **comprehensive accounting analyses** that help you maintain a clear overview of your financial processes and make informed decisions.
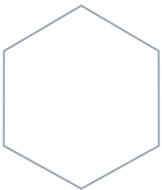

Support for electronic signatures

CONTROLLING

Maintain an overview at all times and generate important key figures at the touch of a button. **Comprehensive statistical evaluations** provide you with valuable insights into your team's working methods and the course of treatment for your patients. This data enables you to recognise trends, **identify potential for improvement** and make informed decisions.

Our statistics and evaluation options help you to use your **resources efficiently** and **increase the profitability** of your facility.

We look forward to supporting you on your journey
with our VivoCare® software!
